

COLLEGE AND UNIVERSITY PROGRAMS

The Metropolitan School District of Washington Township (“District”) recognizes the value to students and to the District for students to participate in programs offered by accredited colleges and universities in Indiana.

The District will allow students to enroll in approved postsecondary programs while in attendance in the District. Students will be eligible to receive dual credit or be provided dual enrollment programs that meet the educational objectives of the District and are offered by state educational institutions as defined in I.C. 21-43.

No student may participate, however, without the written consent of the high school principal if such participation would delay his/her graduation from high school. The District reserves the right to deny student eligibility if the course is cancelled due to low enrollment.

The criteria for determining the courses approved for secondary credit will comply with those set forth by the Indiana Department of Education.
